Team # 1

… and suddenly, we were a team!

- ❖ Use someones code or begin from scratch again?
    - ❖ Take what we have
- ❖ How should we work?
    - ❖ Pair-Programming

Team #1

What happend in the 1. Cycle…

❖ Some of us seamed more eager than others.

❖ … but it worked.

Team #1

What happend in the 2. Cycle…

- ❖ Some of us are still more eager than others.
- ❖ … and it still workes.

Team #1

How do we work as a team, and how does it work out for everyone?

- ❖ No (real) roles
- ❖ Issues are self-assigned

Team #1

Workflow

- ❖ […] split the task – work – refactor – swear – reinstall rubymine – more swearing […]

- ❖ it just flows ;)

Team #1

Communication

❖ Doodle to find a date (or find out, that we can't find one…)

❖ First Skype, now we have TeamSpeak!

❖ Wiki: Protocalls, Stories, Coding Standarts, hints and tips

❖Issues, issues and more issues…
